OBJECTIVE

An enthusiastic and dedicated Computer Science student with a strong passion for technology and innovation, Eager to apply technical skills in real-world environments through collaborative and challenging projects. Proficient in modern programming languages, development frameworks, and software engineering principles.

EDUCATION

B V Raju Institute of Technology, Narsapur

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.96/10

Expected May 2026

Sri Chaitanya Junior College, Hyderabad

Intermediate in Mathematics, Physics, and Chemistry (MPC)

Marks: 913/1000

May 2022

Sri Krishnaveni Talent School, Tandur

High School

GPA: 9.2/10

April 2020

SKILLS

Programming Skills: Python, JavaScript, c.

Tools: GitHub, VS Code

Databases: MySQL

Areas of Interest: artificial intelligences, Machine Learning (ML), Operating Systems (OS), Database Management Systems (DBMS), Object-Oriented Programming (OOP), Computer Organization (CO)

PROJECTS

Recommender AI Agent: Integrating Large Language Models for Interactive Recommendations

- **Designed and implemented** a hybrid recommendation system integrating **Large Language Models (LLMs)** with **collaborative** and **content-based filtering** for personalized, interactive user experiences.
- Integrated **RecLlama (7B fine-tuned LLM)** to enable scalable, context-aware, and conversational recommendations.
- Combined **structured data reasoning** with **natural language understanding** to improve response relevance and overall system performance.
- **Tools/Technologies:** Python, LangChain, Hugging Face Transformers, FastAPI.

ParkEase – Smart Urban Parking System

- Engineered an **intelligent parking solution** combining **CNN-LSTM models** and IoT sensor networks to accurately **predict real-time parking availability** and improve urban mobility.
- Integrated **RFID, ultrasonic, LiDAR, and magnetic sensors** for **automated vehicle detection**, entry authorization, and **slot reservation** with minimal human intervention.

- Built a **user-centric dashboard** for dynamic parking updates, streamlined slot booking, and smart navigation assistance.
- **Tools/Technologies:** Python, TensorFlow, IoT Protocols (MQTT/HTTP).

CERTIFICATIONS

- Certificate by **Oracle Academy** – Database Programming with SQL
- Certificate of Completion – **Swecha AI Workshop**
- Certificate by **TASK** – HTML and JavaScript
- **NPTEL Certificates** in Soft Skills and Deep Learning for Natural Language Processing

ACHIEVEMENTS

NxtWave Fellowship

- **Awarded a fellowship by NxtWave**, a private learning platform, focused on Data Structures and Algorithms (DSA) with C++, enhancing problem-solving and coding efficiency.
